

Melbourne

October 17, 1957

Dear Luca:

I am sorry to have been unable to make definite plans regarding our visit, and especially that we now have to report a change of itinerary. To the best of our knowledge and ability, we will be following this plan:

- lv. Melbourne for Adelaide & Perth Oct. 31
- lv. Perth for Calcutta (c/o Haldane) Nov 6
- lv. Bombay (c/o Dr H J Bhabha, Tata Institute for  
fundamental research, Apollo Pier Road, Bombay 1)  
on Wednesday, Nov 13 on Qantas 535 to arrive  
Rome on the 14th. We will have a reservation  
for Rome to Milan the same evening, pending  
word from you on detailed Italian plans. We  
would leave Milan about the 19th, again depending  
on our arrangements with you.

I have your first recent letter, acknowledging that you will be in Italy all next month, and indicating some difficulties in arranging lecture engagements. As I have mentioned in an earlier aerogram, please do not make many commitments for these -- what you mentioned about Milan and Pavia would be quite enough. However, if you plan to be in Rome yourself, I am willing to do anything you yourself would suggest.

I hope there will be time for you to acknowledge this letter before we leave Melbourne. If not, we can be reached at Adelaide, c/o Dr. Nancy Atkinson, and at Perth, c/o Prof. N F Stanley-- ~~XXXXXXXX~~ at the Bact. Depts. of the respective universities.

We are eagerly looking forward to seeing you.

Yours,

P=S= It would be quite all right if you preferred to come (and unfortunately leave) earlier. As far as a salary in Madison is concerned, we can furnish \$600 a month on very short notice. I am anxious to talk to you about that.
